Projects

Eco Yoga Store

The Eco Yoga Store was founded in New Zealand in 2008 for the owner to remain connected to the yoga community and selling ecological yoga products. The website opts never to stock any low quality, plastic PVC yoga mats that churned out of China, to provide organic fabric options and fillings where possible and deal with companies that operate with a similar ethos to Eco Yoga. The mission of the site is to bring you the healthiest, highest quality yoga gear from around the globe.

Technology Used: Magento2

Looketernal

This is an e-commerce website catering to the daily needs of women related to all the fashion products. The users can scroll and search multiple articles and compare them based on one's need. Categorization of the products is done for the ease of the user. Features like wish list items, shopping cart, vouchers and online customer support are present in order to give a holistic view to the solution.

Technology Used: Magento2

Physiciannaturals

Physiciannaturals is an e-commerce website providing an online portal to buy medicines for a person's own need. The solution encompasses multiple features from category and medicine search, online support, shopping cart and information and comparing view for the medicines in order to provide the best possible and suited medicine to the users.

Technology Used: Magento2

Dropship

The application is an E-commerce portal which is used as a merchant to distribute its product to different vendors. Created an extension which imports the product, product price based on vendor profile from merchant store to vendor store through rest API's. Vendor can replicate his order to the merchant store. When merchant ships the order it automatically syncs the order status in vendor store with tracking ID. Merchant can assign the different product based on customer group for vendors.

Technology Used: Magento 2.2.4, Php, Xml, Ajax, MySQL, ERP
